DECLARATION OF KARYN MASSIE IN SUPPORT OF FILING OF
COMPUTER DISKETTE ON MARCH 20, 2003

I, Karyn F. Massie, have personal information of the facts contained herein and if called as a witness to testify would competently testify hereto the following:

On February 24, 2003, the U.S. Patent and Trademark Office sent a notification to our office indicating the content of the nucleotide and/or sequence disclosure, "Sequence Listing" submitted on April 5, 2001, in computer readable form, did not comply with the requirements of 37 CFR 1.822 and/or 1.832.

The U.S. Patent and Trademark Office provided a one-month period of time in which to comply with the requirements making the response due on March 24, 2003. On March 20, 2003, I prepared the following items for mailing to the U.S. Patent and Trademark Office: Transmittal letter, Response to Notification of Defective Response; Statement Under 37 CFR 1.821(f) and (g); sequence listing in both CRF format and paper copy, copy of Notification of Defective Response mailed February 24, 2003 and return postcard.

I compiled all documents and diskette together, placed the documents and diskette in a protective wrapper for mailing and inserted them into an envelope. I then mailed all of the documents, including the diskette to the U.S. Patent and Trademark Office on March 20, 2003. Enclosed for your reference is a copy of page 1 of the response which contains an executed statement that the envelope was deposited with the postal service on March 20, 2003. (See, Exhibit "A".)

On or about April 15, 2003, we received the above-noted return postcard in the mail. The postcard clearly indicates that the Sequence Listing was submitted in a CRF and paper copy format. The postcard was stamped as received by the Patent and Trademark Office on April 11, 2003. Enclosed for your reference is a copy of the post card prior to mailing and after it was received from the U.S.P.T.O. (See, Exhibit "B".)

I, Karyn F. Massie, declare under penalty of perjury, the foregoing is true and correct. Executed this 29th day of September, 2003, in San Diego, California.

Karyn F. Massie
